

Disclosure 2.0: Create, edit, collaborate and publish elegant disclosures in Microsoft Word®

With Disclosure 2.0, creating, editing and publishing visually impressive SEC disclosure is swift and easy. You manage one document in one program – Microsoft Word®. Upload your .docx file to our powerful and secure cloud-based Disclosure 2.0 platform where you can output SEC-compliant HTML and a formatted PDF file in minutes.

- Manage your disclosure in Microsoft Word®
- Publish print ready PDFs and EDGAR files in a contemporary layout
- View your full revision history in both MS Word® and typeset files
- Eliminate conversion delays, data loss and authors' alterations
- Retain control of your document, reduce risk and save time

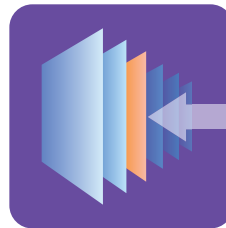

1 Design your document using our "Build Your Own" approach, or request a custom design

4 Edit the Word document collaboratively or on your own

2 Draft and edit your disclosure in Microsoft Word®

5 Easy robust version control from beginning to end

3 Share and edit your documents with others

6 Output stylized PDFs and SEC-compliant HTML directly from your Word file
